

The 2023 accomplishments for the SLP academy are:

Engagement in a strategic planning process for the SLP Academy. We assigned two leads, gathered input from members, drafted a plan, reviewed the plan at multiple levels, surveyed all members for input on the plan, and then approved the final plan in October 2023. We are now in the processes of identifying leads for the main goals. The goals are:

Goal 1 Enhance the member experience for SLP Academy Professional Members and Fellows.

Goal 2 Increase collaboration within the SLP Academy and with NAP academies to advance interprofessional education, practice, scholarship, and policy.

Goal 3 Advance interprofessional education and collaborative practice (IPECP) through knowledge sharing.

I have also attached a full copy of the strategic plan.

The next accomplishment related to the cross academy meetings that we did with the PT academy and with the PT and OT academies.

At our 10.18.23 meeting we discussed SDoH and NAP's Strategic Interprofessional Initiative

We then went into interprofessional breakout rooms on 3 different topics

Room 1: Acute Care

Room 2: IP rehab

Room 3: Outpatient/Home Health
